Spotlight on Professionals

Spotlight on Professionals aims to share stories from those working in childhood programs. This includes all professionals, such as home visiting, early intervention, child care, Head Start, preschool, and afterschool. These stories are also available on the [Early Connections website](#).

This month's "Spotlight on Professionals" highlights the work of Home Visiting Supervisor, Erin Wehmeier, of Healthy Families of America. Erin has loved working with children since she was young and remembers pretending to be a teacher when she was a child. She obtained her degree in Early Childhood Education from the University of Illinois in 2004. Erin began teaching in 2008, and for 11 years, she taught in private and public school settings.

As a foster parent, Erin recognized the value of the trauma-informed training she received and felt passionate in supporting the birth families of the children she fostered. After moving to Missouri and discovering the Parents as Teachers (PAT) program and Healthy Families of America she began working with birth mothers of the children she had fostered, teaching them the parenting skills she had acquired through her trauma-informed training.

In just eight months, she became a supervisor in the Healthy Families of America program, showcasing her dedication and effectiveness. In 2021, funding changes led Erin to Community Partnership of the Ozarks, where she continues to serve in her supervisory role along with a full home visiting caseload. Her story is a testament to the power of dedication, compassion, and the desire to help others. Her journey is an inspiration to all who seek to make a positive impact on the lives of children and families.

"Children are our future, and we need to invest in them and meet their needs educationally and emotionally."

Spotlight on Success

Spotlight on Success aims to share stories from local programs that are building community partnerships in order to strengthen and coordinate childhood programs.

This month’s Spotlight on Success is First Step Preschool, a mission of First Christian Church, in Troy, Missouri. Through the Paycheck Protection Program (PPP) grant, First Step Preschool has offered nearly \$15,000 in financial assistance to families in need in the community since January 2023. This

funding will continue to allow families to attend First Step Preschool tuition-free through at least May 2024. In addition, First Step Preschool has assisted families experiencing financial hardships throughout the year by forgiving their overdue tuition balances. This has given families “a fresh start towards staying up-to-date with tuition payments,” said Jaimie Simms, First Step Preschool Director.

Last summer, First Step Preschool also provided a child with a full-time tuition-free summer camp opportunity to attend their program.

Jaimie also shared that their PPP grant funds are allowing the program to update its outdoor playground area this fall. “This new area will enhance our children's outdoor experiences. As we know, this positive playground exposure is imperative to their development, including better physical health, sensory stimulation, stronger verbal and social skills, as well as expanding children's attention and cognitive ability,” said Jaimie. The new playground will be open to families in the community to enjoy outside of preschool hours.

Throughout the year, First Step Preschool partners with the church and businesses within the community to host special events at the preschool. They recently hosted a Preschool Community Helper Fair where children learned about each of the community helpers. Together with the church, First Step Preschool also hosts an annual trunk-or-treat event and assists families in need during the holiday season.

Through the support of the church and these grant funding opportunities, First Step Preschool strives to be a pillar for early childhood education within the community.
